Siddartha Educational Academy Group of Institutions,

Tirupati.

To

The Registrar

JNTUA, Ananthapuramu,

Respected,

Sub: Siddartha Educational Academy Group of Institutions – Feedback on
Curriculum – Suggestions – Reg.

As a regular practice the Feedback on JNTUA B.Tech R15 Curriculum
was collected from students, alumni, faculty and Employers. The stake holders
have suggested some of the points and new courses which may be included in
the upcoming regulation for the betterment of students.

I am herewith submitting the suggestions given by the stake holders for your
perusal and necessary action.

Thanking you sir,

Yours Sincerely

Dr.K.Rajasekhar

Action Taken on Stake Holder Feedback on JNTUA B. Tech - R15 Curriculum

B. Tech. R15 in Civil Engineering	
Feedback report from Alumni: **Alumni feedback was summarized and are as follows:** 1. New Lab courses likes E-Tabs, Sketch Up may be introduced which will be emphasizing on the basics and beyond on the computer aided designing that would help students to get placed in industries and to be an entrepreneur. 2. Language communications lab may be introduced with minimum credits 3. Extra Teaching/Coaching can be given to the students for all competitive examinations 4. Industrial internships/Trainings with minimum credits may be introduced 5. More number of inter disciplinary subjects with recent trending software's in the industry may be offered 6. Surveying camps can be done with the help of the government agencies like railways, R&B etc,.	**Action taken report:** • Guidance for competitive examination were organized • MOOCS courses/NPTEL Swayam courses were done by many of the students • Add-On courses were conducted where the content beyond the curriculum is covered.
Feedback report from students: **Student Feedback was summarized and are as follows:** 1. The syllabus of fluid mechanics & Hydraulic machinery subjects can be reduced. 2. In the surveying subjects, the advances in surveying may be included. 3. Design subjects like design of irrigation structures may be included. 4. More number of inter disciplinary electives, like java programming, may be offered. 5. Mini-project may be introduced during summer vacation. 6. Industrial visits or field trips may be introduced.	**Action taken report:** 1. MOOCS courses/NPTEL Swayam courses were done by many of the students 2. Add-On courses were conducted where the content beyond the curriculum is covered.
Feedback report from faculty members: 1. Building planning & Drawing subject can be included. 2. Building materials and construction can be split it in to two subjects as building materials & building construction. 3. The computer aided design lab may be included in the upcoming syllabus which enables the students for the industry interaction. 4. Pre stressed concrete subject can be added as regular core subject instead of the elective subject. 5. Environmental engineering subject can be split in to two subjects. 6. Concrete technology subject can be split it into two.	**Action taken report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action.
Feedback from Employer: Communication skills need to be enhanced	**Action taken report:** Conducted advanced English Communication skills classes

B. Tech Holder Feedback on JNTUA B. Tech-R15 Curriculum. R15 in Electrical and Electronics Engineering	
Feedback report from Alumni: 1. New lab courses may be introduced which will be emphasizing on the basics and beyond on the computer aided designing that would help students to get placed in industries and to be an entrepreneur. 2. Language communications Lab may be introduced with minimum credits. 3. Research Methodology and IPR may be introduced which will be useful for the students who willing to do M. Tech and higher studies. 4. Industrial internships with minimum credits may be introduced. 5. More number of inter disciplinary electives may be offered. 6. Comprehensive Online Examination may be avoided and guidance for competitive examination may be organized by the college. 7. MOOCS courses may be introduced with minimum credits	**Action taken report:** 1. Guidance for competitive examination were organized. 2. Workshops on Research Methodology and IPR were organized. 3. MOOCS courses/NPTEL Swayam courses were done by many of the students. 4. Add-On courses were conducted where the content beyond the curriculum is covered.
Feedback report from Students: 1. The syllabus of Control System Engineering may be reduced. 2. Theory course and Laboratory course may be accommodated in the same semester. 3. Digital signal Processing Lab may be introduced 4. More number of inter disciplinary electives may be offered. 5. Mini-Project may be introduced during summer vacation. 6. Industrial visits or field trips with minimum credits may be introduced	**Action taken report:** 1. MOOCS courses/NPTEL Swayam courses were done by many of the students. 2. Add-on courses were conducted where the content beyond the curriculum is covered.
Feedback report from Faculty members: 1. Electrical Machines - I and Electrical Machines - I Lab should be in the same semester. 2. More number of Interdisciplinary, Professional and Open electives may be introduced. 3. Theory course and Laboratory course may be accommodated in the same semester. 4. Community based Mini-Project may be introduced. 5. Basic interdisciplinary courses may be included in I or II semester only.	Action taken report: 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action.
Feedback from Employer: Introduce advanced C programming	**Action taken report:** Communicated to university for implementation

Action Taken on Stake holder Feedback on JNTUA B.Tech_ R15 Curriculum

B.Tech. R15 in Mechanical Engineering	
Feedback Report from Alumni: **Alumini feedback was summarized and are as follows** 1. Suggested to provide knowledge on latest trends in mechanical engineering like composites and nano composites. 2. Suggested to provide python language skills. 3. Suggested to provide research orient courses like research methodology. 4. Recommended to include mini projects in the Curriculum. 5. Suggested to provide mechatronics course.	**Action Taken Report:** 1. An add-on course on composite materials was conducted for all mechanical students. 2. An add-on course on nano composite materials was conducted for all mechanical students.
Feedback Report from Students: **Student Feedback was summarized and are as follows.** 1. A new course on Application development with python may be introduced in the curriculum. 2. Suggested to include inter disciplinary subjects in the curriculum. 3. Suggested to provide more possible industrial visits. 4. Universal Human values course should be introduced in the curriculum to develop ethics and moral in students. 5. Suggested to Provide more Placement trainings in the curriculum. 6. Suggested to change Electronic Devices and Circuits subject from II year to I Year ,So that basics can be improved.	**Action Take Report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action. 2. Expert lectures and Add on courses were conducted on latest developments in Electronics and Communication Engineering. 3. Planning to take the students to visit the industries in every semester. 4. Planning to give more sessions on placement trainings.
Feedback report from faculty members: Feedback was taken from all the faculty members who taught the courses of the program and their suggestions are as follows: 1. Suggested to introduce soft skills course. 2. Internships can be made compulsory for III & IV year students. 3. Suggested to make mini projects compulsory for II and III year students. 4. Suggested to introduce software related courses like Artificial intelligence using Python. 5. Suggested to add universal human values, Life skills and Soft skills as a part of curriculum	**Action Take Report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action.
Feedback from Employer: 1. Train the students on soft skills and communication skills. 2. Suggested to introduce course on design of machines.	**Action taken report:** 1.Extra classes were taken to train the students in soft skills 2. The suggestions were summarized and sent to the affiliating university for implementation and necessary action.

Planning to give more sessions on placement trainings.
Feedback report from faculty members: Feedback was taken from all the faculty members who taught the courses of the program and their suggestions are as follows: 1. Simulation using Multisim/PSPICE may be introduced for Electronic circuit analysis and desin Lab. 2. Internships can be made compulsory for III & IV year students. 3. Suggested to make mini projects compulsory for II and III year students. 4. Suggested to introduce software related courses like Artificial intelligence using Python. 5. Suggested to add universal human values, Life skills and Soft skills as a part of curriculum	**Action Take Report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action.
Feedback from Employer: Train the students on soft skills and communication skills.	**Action taken report:** Extra classes were taken to train the students.

Action Taken on Stake holder Feedback on JNTUA Curriculum
Department Of Computer Science Engineering

Department Of Computer Science Engineering (R15)- Curriculum	
Feedback Report from Alumni: 1. Suggested to introduce job Readiness Capability of the syllabus Regarding Marketing Streaming Like Digital Marketing, Affiliate Marketing and Email Marketing 2. Suggested to upgrade the Syllabus as per the Contemporary nature in the field of Marketing, Finance, Production, Human Resources and Research &Development. 3. Suggested to update the curriculum needed to improve some more field works for various specializations it will give some learning opportunities to know about the real market in present competitive scenario. 4. Suggested to include to courses to improve business communication and presentation skills. 5. Suggested to include value content of syllabus in making the students as good citizens with some ethical and human values. 6. Suggested to introduce course on personality development	**Action Taken Report:** 1. The suggestions were summarized and sent to the affiliating university implementation and necessary action. 2. An Add-on course On Start-up Programming on Small Business in India was conducted by eminent resource person with the help of Alumni students. 3. An Add-on course on Body Language on Personality Development was conducted by an eminent resource person.
Feedback Report from Students: 1. Suggested to introduce Communication skill oriented course to attend interviews. 2. Suggested to incorporate more software skills related courses to meet the industry requirements. 3. Suggested to provide more possible industrial visits. 4. Suggested to better to give some management practices to enhance the team building and leadership capabilities through the classroom network. 5. Suggested to provide courses on latest developments and advances in business field. 6. Suggested to introduce some experience regarding mini projects in III semester before going to do main project work in IV semester. 7. Suggested to introduce some personality development courses or programmes to obtain outside of the business environment	**Action Take Report:** 1. An Add-on course on Body Language and Personality Development was conducted by an eminent resource person. 2. The Suggestions were summarized and sent to the affiliating university for implementation and necessary action. 3. Expert lectures on latest developments and advances in Contemporary issues on Business Management were conducted. 4. Organise some team building and leadership capabilities enhancement programmes an events for the students. 5. An Add-on Course on business intelligence and knowledge management system was conducted. 6. Organised National Level Management meet for all management students to give the awareness about the competition and fact finding things at present scenario.
Feedback report from faculty members: 1. Suggested to follow the participatory and decentralized administration approach in curriculum for better management practices 2. Suggested to include some appropriate syllabus regarding women empowerment to encourage the women students towards Women entrepreneurship. 3. Suggested to make some needful syllabus regarding entrepreneurship and challenges faced by entrepreneurs while going to start up a own business in domestic and global marketing. 4. Suggested to update the curriculum need in improve the experiential learning opportunities such as internship, practical application of marketing concepts. 5. Suggested to reduce some syllabus in IVth semester to focus on project work, it will give some extra time to the live project to know about the contemporary issues.	**Action Take Report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action. 2. Organized some women empowerment program is regarding women entrepreneurship and financial freedom to girl students 3. Conducted some practical events on own business and its challenges to face in the present competitive scenario.
Feedback from Employer: Field work may be introduced with minimum credits	**Action taken report:** Communicated to university for implementation.

Suggested to update the curriculum needed to improve some more field works for various specializations it will give some learning opportunities to know about the real market in present competitive scenario. 4. Suggested to include to courses to improve business communication and presentation skills. 5. Suggested to include value content of syllabus in making the students as good citizens with some ethical and human values. 6. Suggested to introduce course on personality development	**Action Taken Report:** 1. The suggestions were summarized and sent to the affiliating university implementation and necessary action. 2. An Add-on course On Start-up Programming on Small Business in India was conducted by eminent resource person with the help of Alumni students. 3. An Add-on course on Body Language on Personality Development was conducted by an eminent resource person.
Feedback Report from Students: 1. Suggested to introduce Communication skill oriented course to attend interviews. 2. Suggested to incorporate more software skills related courses to meet the industry requirements. 3. Suggested to provide more possible industrial visits. 4. Suggested to better to give some management practices to enhance the team building and leadership capabilities through the classroom network. 5. Suggested to provide courses on latest developments and advances in business field. 6. Suggested to introduce some experience regarding mini projects in III semester before going to do main project work in IV semester. 7. Suggested to introduce some personality development courses or programmes to obtain outside of the business environment	**Action Take Report:** 1. An Add-on course on Body Language and Personality Development was conducted by an eminent resource person. 2. The Suggestions were summarized and sent to the affiliating university for implementation and necessary action. 3. Expert lectures on latest developments and advances in Contemporary issues on Business Management were conducted. 4. Organise some team building and leadership capabilities enhancement programmes an events for the students. 5. An Add-on Course on business intelligence and knowledge management system was conducted. 6. Organised National Level Management meet for all management students to give the awareness about the competition and fact finding things at present scenario.
Feedback report from faculty members: 1. Suggested to follow the participatory and decentralized administration approach in curriculum for better management practices 2. Suggested to include some appropriate syllabus regarding women empowerment to encourage the women students towards Women entrepreneurship. 3. Suggested to make some needful syllabus regarding entrepreneurship and challenges faced by entrepreneurs while going to start up a own business in domestic and global marketing. 4. Suggested to update the curriculum need in improve the experiential learning opportunities such as internship, practical application of marketing concepts. 5. Suggested to reduce some syllabus in IVth semester to focus on project work, it will give some extra time to the live project to know about the contemporary issues.	**Action Take Report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action. 2. Organized some women empowerment program is regarding women entrepreneurship and financial freedom to girl students 3. Conducted some practical events on own business and its challenges to face in the present competitive scenario.
Feedback from Employer: Field work may be introduced with minimum credits	**Action taken report:** Communicated to university for implementation.

Action Taken on Stake Holder Feedback on JNTUA M. Tech - R17 Curriculum

M. Tech. R17 in Structural Engineering	
Feedback report from Alumni: **Alumni feedback was summarized and are as follows:** 1. Research Methodology and IPR may be introduced which will be useful for the students who are willing to do research 2. MOOCS courses may be introduced with minimum credits 3. New lab courses may be introduced which will instigate research skills in students.	**Action taken report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action. 2. Students are asked to convert their project work into research papers.
Feedback report from students: **Student Feedback was summarized and are as follows:** 1. Higher Engineering Mathematics course may be removed 2. MOOCS course may be introduced 3. Professional ethics course may be introduced with minimum credits 4. Low cost housing techniques course may be removed as they have studied it in under graduate(UG) 5. Most of the syllabus of prestressed concrete course is from UG syllabus. The syllabus needs a revise.	**Action taken report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action. 2. MOOCS courses/NPTEL Swayam courses were done by many of the students
Feedback report from faculty members: Feedback was taken from all the faculty members who taught the courses of the program and their suggestions are as follows: 1. Research methodology course may be introduced to motivate research attitude among students. Advanced data structures course may be removed. 2.Advances in concrete technology course may be introduced. 3.One Design and Drawing of the structures course relevant to designing may be introduced in I M.Tech. I semester	**Action taken report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action.
Feedback from Employer: Research Methodology & Intellectual Property Rights courses may be introduced.	**Action taken report:** Communicated to university for implementation

Feedback report from Alumni: **Alumni feedback was summarized and are as follows:** 1. MOOCS courses may be introduced with minimum credits 2. More number of inter disciplinary subjects with recent trending software's in the industry may be offered. 3. New Lab courses likes E-Tabs, Sketch Up may be introduced which will be emphasizing on the basics and beyond on the computer aided designing that would help students to get placed in industries and to be an entrepreneur.	**Action taken report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action. 2. Students are asked to convert their project work into research papers.
Feedback report from students: **Student Feedback was summarized and are as follows:** 1. MOOCS course may be introduced. 2. Disaster Management may be removed as they have studied it in UG. 3. E- Tabs lab course may introduced. 4. Advanced structural analysis course may be removed. 5. Most of the syllabus of Advanced concrete technology course if from UG syllabus. The syllabus needs a revise.	**Action taken report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action. 2. MOOCS courses/NPTEL Swayam courses were done by many of the students
Feedback report from faculty members: **Feedback was taken from all the faculty members who taught the courses of the program and their suggestions are as follows:** 1. Advanced structural design lab course may be introduced. 2. Fracture Mechanics course may be introduced. 3. Personality development course may be introduced. 4. Research Methodology & IPR course may be introduced.	**Action taken report:** 1. The suggestions were summarized and sent to the affiliating university for implementation and necessary action.
Feedback from Employer: New advanced lab courses may be introduced.	**Action taken report:** Communicated to university for implementation
