Electrical and Electronics Engineering Department

Summary Report of one Day workshop

The one day workshop on “MATLAB” was organized by Electrical and Electronics Engineering Department in association with Data Point Hyderabad as a part of the department Activities .The event was scheduled on 16th March 2023. A total of 92 participants comprising Principal, Head of the Department, faculty members and students attended the program.

The program started at 10:00AM with prayer song by Ms. B. Indrani and team from III EEE. This was followed by a welcome address by Mr.T. Sobhan Babu Assistant Professor, Department of EEE and Mr. D Bala Subramanyam, Head, Department of EEE introduced the resource person.

The first session is handed over to the Guest Speaker Mr. Sandeep, Sr. Trainer, Data Point, Hyderabad. He explained about MATLAB software, AutoCAD, simulation and designing of electrical circuits.

The next session is on designing of block diagrams. He explained about working of MATLAB and simulation. The session ended at 3:50 PM.

The session ended with the Vote of thanks by Ms. C Sakila Bhanu, Assistant Professor, Department of EEE.

Finally the workshop program concluded with the National Anthem.

Summary Report of one Day workshop

The one day workshop on “ELECTRICAL WIRING” was organized by Electrical and Electronics Engineering as a part of the department Activities .The event was scheduled on 25th February 2023. A total of 92 participants comprising Principal, Head of the Department, faculty members and students attended the program.

The program started at 10:00AM with prayer song by Ms. Chandragiri Lekhana and team from III EEE. This was followed by a welcome address by Mr.V . Subramanyam Assistant Professor, Department of EEE and Mr. D Bala Subramanyam, Head, Department of EEE introduced the resource person.

Principal started the programme by congratulating the students for their effort to make wiring easily understandable to junior students.HOD gave brief information of new and safety wiring technologies. Final year students gave paper presentation about the wiring procedures. After that a separate session of live wiring is conducted in machines lab which gives practical knowledge. The session ended at 3:50 PM.

The session ended with the Vote of thanks by Ms. C Sakila Bhanu, Assistant Professor, and Department of EEE.

Finally the workshop program concluded with the National Anthem.

Mechanical Engineering Department

Summary Report of one day Guest Lecture

The one day Guest Lecture on “BASICS OF REFRIGERATION AND AIR CONDITIONING” was organized by Department of **Mechanical Engineering**. The event was schedule on 24 th FEBRUARY 2023. A total of 90 participants comprising principal, Head of the Mechanical department, faculty members and students of MECH department attend the program.

The program started at 09:00 am with prayer song by Ms. P.sneha, Assistant Professor, Department of MECH, followed by welcome address by Mr.G.Narendranath Assistant Professor, Department of MECH to resource person and participants , Mr.S..Bhaskar, Head, Department of MECH introduced by resource person.

The session is handover to the Guest Speaker Dr.C.SATYA MEHAR, HOD, DEPT OF MECH MB University,Tirupati, he explains about “BASICS OF REFRIGERATION AND AIR CONDITIONING”. Refrigeration has had a large impact on industry, lifestyle, agriculture, and settlement patterns. The idea of preserving food dates back to human prehistory, but for thousands of years humans were limited regarding the means of doing so. They used curing via salting and drying, and they made use of natural coolness in caves, root cellars, and winter weather, but other means of cooling were unavailable. In 19th century, they began to make use of the ice trade to develop cold chains. In the late 19th through mid-20th centuries, mechanical refrigeration was developed, improved, and greatly expanded in its reach. Refrigeration has thus rapidly evolved in the past century, from ice harvesting to temperature-controlled rail cars, refrigerator trucks, and ubiquitous refrigerators and freezers in both stores and homes in many countries..

In the interactive session, the queries and Guest Lecture clarification of the participants were addressed by the resource person. The participants has been given the feedback about the session

The session is ended with the vote of thanks by Mr D.Dinesh Assistant Professor, Department of MECH

Finally we closed this workshop program with National Anthem.

More than 90 participants were benefited from the Guest Lecture

Civil Engineering Department

Summary Report of one day Workshop

The one day Workshop on “RECENT DEVELOPMENTS IN CONSTRUCTION INDUSTRY” was organized by Department of **Civil Engineering**. The event was schedule on 23rd February 2023. A total of 60 participants comprising principal, Head of the Civil department, faculty members of all departments attend the program.

The program started at 10.00 am with prayer song by Mrs. V. Priyanka Reedy, Assistant Professor, Department of CIVIL, followed by welcome address by Mr. G. Vijay Kumar Assistant Professor, Department of CIVIL to resource person and participants , Mr. S. Mohammad AbrarTaha, Head, Department of CIVIL introduced by resource person.

The session is handover to the Guest Speaker Mr. B.BHARGAV KUMAR Civil Engineer, FK CONSTRUCTIONS, BUILDERS AND DEVELOPERS, he explains about “RECENT DEVELOPMENTS IN CONSTRUCTION INDUSTRY” . India's construction industry is a vital contributor to the country's economy and is responsible for providing jobs and contributing to the development of infrastructure. The industry has undergone significant transformations in recent years, with various advancements and trends changing the way the construction sector operates. In this article, we will discuss the recent developments in the construction industry in India.

Green Buildings:

Sustainable or green buildings have become a popular trend in India's construction industry, with an increased focus on environmental concerns. Many new construction projects are incorporating eco-friendly features such as rainwater harvesting systems, solar panels, green roofs, and energy-efficient lighting systems. The government has also introduced various policies and initiatives to encourage green building practices.

Modular Construction:

Modular construction involves building structures off-site in factories and then transporting them to the construction site. This approach is becoming popular in India due to its speed, cost-effectiveness, and reduced wastage. Modular construction also reduces the need for skilled labour and helps to mitigate some of the logistical challenges associated with traditional construction.

Digitalization:

The construction industry in India is rapidly embracing digitalization to improve efficiency, accuracy, and safety. Building Information Modelling (BIM), virtual reality, and drones are some of the digital

PRINCIPAL
Siddhartha Educational Academy
Group of Institutions
Near C. Gollapalli, TIRUPATI-517 505

tools used in the construction sector. BIM, in particular, is becoming popular in India as it enables real-time collaboration and visualization of projects, reducing errors and enhancing decision-making processes.

Smart Cities:

The Indian government launched the Smart Cities Mission in 2015, with the aim of developing 100 smart cities across the country. The construction industry has played a crucial role in this initiative, with many new construction projects incorporating smart features such as sensor-based lighting systems, waste management systems, and intelligent traffic management systems.

Use of Advanced Materials:

The use of advanced materials such as engineered wood, fiber-reinforced polymers, and ultra-high-performance concrete is gaining popularity in India's construction industry. These materials offer several advantages over traditional materials, such as increased strength, durability, and reduced environmental impact. In conclusion, the construction industry in India is witnessing significant developments and transformations. The increasing focus on sustainable practices, digitalization, and the use of advanced materials are some of the recent trends that are shaping the industry's future. The industry's continued growth and success will depend on its ability to embrace these developments and remain innovative and adaptable to the changing needs of the market.

In the interactive session, the queries and clarification of the participants were addressed by the resource person. The participants has been given the feedback about the session

The session is ended with the vote of thanks by Mr. S. Abdul Amanulla, Assistant Professor, Department of CIVIL

Finally we closed this workshop program with National Anthem.

More than 60 participants were benefited from the workshop.

TWO DAY WORKSHOP ON PYTHON WITH MACHINE LEARNING

DATE : 06TH & 07TH JANUARY 2023 - TIME 10.00 AM - 04.00 PM

VENUE : CSE - SEMINAR HALL - SEAGI

👉 INAUGURAL SESSION : 10.00AM - 10.30 AM

PRAYER SONG BY II-CSE STUDENTS

👉 WELCOME ADDRESS : Mr.N.Anand Reddy
Head - CSE

👉 PRESIDENTIAL ADDRESS : Prof.K.Raja Sekhar
Principal - SEAT

👉 INTRODUCTION : Mr.N.Anand Reddy
Head - CSE
RESOURCE PERSON

👉 TECHNICAL SESSION DAY-1 : TOPICS BY Mr.P.B.Sabarinadh
Sr. Software Engineer - DATAPOINT INFO SOLUTIONS - HYD
(10.40A.M - 04.00 P.M.)

- What is Machine learning?
- Applications Machine learning?
- Types of Machine learning Algorithms
- Supervised Learning: Regression and classification
- Prediction using Machine learning?
- Decision Trees and Random Forest
- Unsupervised Learning

👉 TECHNICAL SESSION DAY-2 : TOPICS BY Mr.R.Ajay Kumar
Sr. Software Engineer - DATAPOINT INFO SOLUTIONS - HYD
(10.00A.M - 03.00 P.M.)

- Prerequisites to learn Machine learning
- Basic Concepts and features of python
- Jupyter I walk Through
- EDA (Exploratory Data analysis)
- Data visualization (numpy, pandas, matplotlib)
- Hands on Project:(Prediction)

👉 FEEDBACK BY THE PARTICIPANTS

👉 VOTE OF THANKS : Dr.Sujeeth . T
Associate Professor - CSE

Computer Science and Engineering Department

Summary Report for Two Days Workshop

The two days Workshop on “Python with machine learning” was organized by department of computer science with associate with Datapoint info solutions, Hyderabad. The event was schedule on 6th and 7th January 2023. A total of 65 participants comprising principal, Head of the department, faculty members and students attend the program

The program started at 10:00am with prayer song by Ms. Pavithra and team II CSE students followed by welcome address by Dr.B. Narayana Babu Associate Professor, Department of CSE to resource person and participants and Mr N. Anand Reddy , Head, Department of CSE introduced by resource persons

The Day -1 session is handover to the Guest Speaker Mr . P.B Sabarinadh Sr. software engineer from Datapoint Info Solution, Hyderabad, he explains about python and Machine learning. It also provided the insights of python programming applications for web application, gaming development, web scraping application, business applications, machine learning and data science applications. He explains with the real time examples for each every topic with the clear manner.

The next session begin with python modules and packages, which encourage program modularity and code reuse. The python interpreter and extensive standard library are available in source or binary form without change for all major platforms. The Day -1 session is ended at 3:50 pm

PRINCIPAL
Siddhartha Educational Academy
Group of Institutions
TIRUPATI - 517 505

The Day – 2 sessions is handover to the guest speaker Mr. R. Ajay kumar Sr. software engineer from Datapoint Info Solution, Hyderabad, this session was deeply explained about the concept of scripting language. A scripting or script language is a programming language that supports scripts, programs written for a special run time environment that automate the execution of tasks that could be alternatively be executed one by one by a human operator.

In the later sessions he discussed use of matplotlib. Matplotlib is a library for making 2D plots of arrays in python. Although it has its origins in emulating the MATLAB and can be used in pythonic, object oriented way, etc.,

In the interactive session, the queries and clarification of the participants were addressed by the resource person. The participant has been given the feedback about the Day – 1 and Day -2 sessions.

The session is ended with the vote of thanks by Dr. Sujeeth. T Associate Professor, Department of CSE.

Finally we closed this workshop program with National Anthem.

More than 65 participants were benefited from the workshop.

ELECTRONICS AND COMMUNICATION ENGINEERING DEPARTMENT

Summary Report for Two Days Workshop

The two day's Workshop on "WIRELESS COMMUNICATION SYSTEMS" was organized by Electronics and Communication Engineering Department with associate with BSNL Pileru. The event was schedule on 3th and 4th January 2023. A total of 95 participants comprising principal, Head of the department, faculty members and students attend the program.

The program started at 10:00am with prayer song by Ms. S. Thulasi and team IIIECE students followed by welcome address by Mr. T. Venkata Ramana Assistant Professor, Department of ECE to resource person and participants and Mr. K Purushotham Prasad, Head, Department of ECE introduced resource persons.

The Day -1 session is handover to the Guest Speaker Mr. G Venkata Chalapathi JTO, BSNL, Pileru..He explains about wireless communication systems. He explains how cells are splitting and how calls are hand off from one base station to other base station. The process of Initializing base stations in cells areas is clearly discussed.

The next session begin with BSNL exchange office, which encourage participants towards mobile communication. He explains about working of mobile communications. The Day -1 session is ended at 3:50 pm

The Day – 2 sessions is continued by the guest speaker Mr. G Venkata Chalapathi JTO, BSNL, Pileru. In this session, he was deeply explained about the concept sector(both 30 degrees & 60 degrees) concept.

In the later sessions he discussed use of underlay & overlay concept for increasing sufficiency of wireless communication system. At last he discussed about inter system hand

off in mobile communication systems and also how to provide service for more number of customers & increase efficiency of wireless communication system

In the interactive session, the queries and clarification of the participants were addressed by the resource person. The participant has been given the feedback about the Day – 1 and Day - 2 sessions.

The session is ended with the vote of thanks by Mr. D. Vijayakumar Reddy Assistant Professor, Department of ECE.

Finally we closed this workshop program with National Anthem.

More than 95 participants were benefited from the workshop.

Awareness SWAYAM online program

Awareness of SWAYAM online programme Mr D.Suresh Reddy, Asst Professor , Department of CSE spoke on the topic of “**Comprehension of SWAYAM courses**” on 21.11.22. This programme was conducted by the SWAYAM of the Institution. He explained the various advantages of SWAYAM Courses. Students can connect with each and every one other from all over India using the digital web. The SWAYAM courses are available in free of charge. Swayam MOOC courses are planned and prepared by some of India’s best teachers .Course format is easy and comfortable – video lectures, specially prepared reading material available. National educational bodies such as NPTEL (National Programme on Technology Enhanced Learning), IGNOU (Indira Gandhi National Open University), UGC (University Grants Commission), IIT (Indian Institute of Technology) and even the IIMs (Indian Institute of Management) are hosting courses on the Swayam portal. Swayam course certificates are contributed to all learners after passing examinations, as a proof of their skills. Many faculty members and students in various places eagerly attended

Civil Engineering Department

Summary Report of one day Workshop

The one day Workshop on “TALL BUILDINGS DESIGN” was organized by Department of Civil Engineering. The event was schedule on 29/10/2022. A total of 60 participants comprising principal, Head of the Civil department, faculty members of all departments attend the program.

The program started at 10:00 am with prayer song by Ms. G. SOBHANA, Assistant Professor, Department of CIVIL, followed by welcome address by Mr. M. ANANDA KUMAR Assistant Professor, Department of CIVIL to resource person and participants , Mr. S. MOHAMMAD ABRAR TAHA, Head, Department of CIVIL introduced by resource person.

The session is handover to the Guest Speaker K. MADHAVA MURTHY, CIVIL ENGINEER, Phoenix Group, he explains about “TALL BUILDINGS DESIGN”. The design of tall buildings essentially involves a conceptual design, approximate analysis, preliminary design and optimization, to safely carry gravity and lateral loads. The design criteria are, strength, serviceability, stability and human comfort. The strength is satisfied by limit stresses, while serviceability is satisfied by drift limits in the range of H/500 to H/1000. Stability is satisfied by sufficient factor of safety against buckling and P-Delta effects. The factor of safety is around 1.67 to 1.92. The human comfort aspects are satisfied by accelerations in the range of 10 to 25 milli-g, where g =acceleration due to gravity, about 981cms/sec². The aim of the structural engineer is to arrive at suitable structural schemes, to satisfy these criteria, and assess their structural weights in weight/unit area in square feet or square meters. This initiates structural drawings and specifications to enable construction engineers to proceed with fabrication and erection operations. The weight of steel in lbs/sqft or in kg/sqm is often a parameter the architects and construction managers are looking for from the structural engineer. This includes the weights of floor system, girders, braces and columns.

In the interactive session, the queries and clarification of the participants were addressed by the resource person. The participants has been given the feedback about the session

The session is ended with the vote of thanks by Ms. P.GAYATHRI, Assistant Professor, Department of CIVIL

Finally we closed this workshop program with National Anthem.

More than 60 participants were benefited from the workshop.

Civil Engineering Department

Summary Report of one day Workshop

The one day Workshop on “SEISMIC DESIGN” was organized by Department of **Civil Engineering**. The event was schedule on 27th October 2022. A total of 80 participants comprising principal, Head of the Civil department, faculty members of all departments attend the program.

The program started at 10.00 am with prayer song by Mrs. V. Priyanka Reedy, Assistant Professor, Department of CIVIL, followed by welcome address by Mr. K. Prasanth Kumar Assistant Professor, Department of CIVIL to resource person and participants , Mr. S. Mohammad AbrarTaha, Head, Department of CIVIL introduced by resource person.

The session is handover to the Guest Speaker Mr. D.DINESH NAIDU Structural Engineer, Geocontech, he explains about “SEISMIC DESIGN” . Seismic design is a vital process of structural analysis while designing a building, which is subjected to Earthquake ground motions, such that the facility continues to function and serve its purpose even after an Earthquake. Seismic Engineering has evolved over a period of time, the complexity of analysis which used to contain numerous iterations of formulas have now been automated with tools like ETABS, STAAD. Pro, ROBOT, TEKLA and others. These tools results in advantageous outcomes including but not limited to safe, stable & durable structure along with optimization of design & cost-efficient structures. Hospital & Educational Buildings are special structures with high importance factor ranging around 25-50% analysis score than the residential or commercial structures. Seismic resistance of a building can be increased by adopting different types of structural systems viz., seismic isolation system, energy dissipation system and active control systems etc., which enhances the seismic behavior of a building by dissipating the lateral forces without damaging the structural elements. The development of new structural systems and devices will proliferate the non-traditional civil engineering materials and techniques. By adopting such advanced system approaches based on dynamic analysis gives better representation of the behavior when simulated for seismic design conditions.

In the interactive session, the queries and clarification of the participants were addressed by the resource person. The participants has been given the feedback about the session

The session is ended with the vote of thanks by Mr. G. Vijay Kumar, Assistant Professor, Department of CIVIL

Finally we closed this workshop program with National Anthem.

More than 60 participants were benefited from the workshop.

Summary

Date: 22/10/2022

On the first day of the workshop The program began at 9.00 in the morning. All the registered students and faculty members gathered in the seminar hall. Initially, Principal Prof. K. Rajasekhar addressed the students and faculty members. He delivered a speech on the importance of communication and soft skills shared to the students and faculty members.

At 10.00 A.M, Mrs. N. S. Divya and Mr. S.Md. Thameem Basha were started their presentation on '**SIGNIFICANCE OF SOFT SKILLS**'. Throughout the presentation they told that "soft skills education refers to the fundamental abilities that assist adolescents in developing the skills required to deal with life's realities. Soft skills enable people to learn new things , gain control over their behaviour and make informal decisions. The main goal is to assess the state of soft skill education ages adolescents and to determine which soft skills are most important in overcoming educational delays. It improves a person's ability to meet social goals and demands as well as helps them to deal with a variety of situations. Instilling training through soft skills education will assist students in overcoming life's challenges.

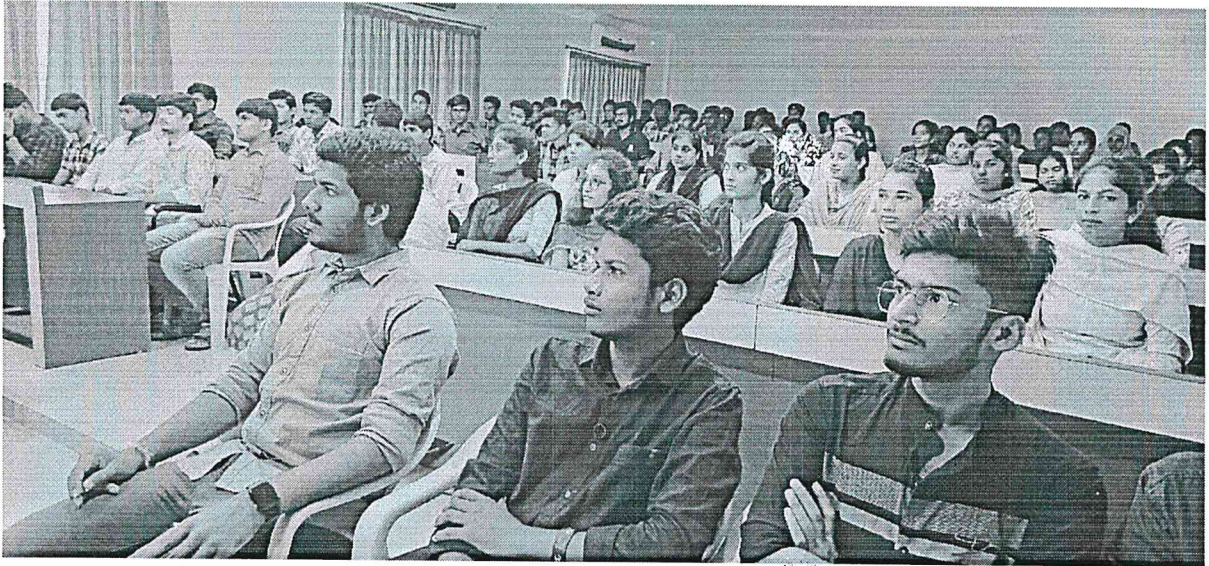

On the second day also all the students and faculty members gathered in the seminar hall At 10.00 AM. the speaker, Mrs. N. S. Divya clarified the doubts of students, after that all faculty members felicitated the speakers and finally the program concluded with a vote of thanks proposed by Mr. K. Mahaboob Basha, faculty of Mathematics.

Electronics and Communication Engineering Department

Summary Report of one Day webinar

The one day workshop on “**DIGITAL ELECTRONICS**” was organized by Electronics and Communication Engineering Department in association with Sorting Hat Technologies Pvt Ltd Bangalore as a part of the MoU .

The event was scheduled on 17th October 2022. A total of 90 participants comprising Principal, Head of the Department, faculty members and students attended the program.

The program started at 10:00AM with prayer song by Ms. M Sai Bhumika and team from II ECE. This was followed by a welcome address by Mr.P Sai Prasad Assistant Professor, Department of ECE and Mr. P Purushothami Prasad, Head, Department of ECE introduced the resource person.

The first session is handed over to the Guest Speaker Mr. Mahesh Suthar, Senior Director Senior Management Sorting Hat Technologies Pvt Ltd Bangalore, . He explained about basics of digital electronics and importance of digital domain. He explained about representation of number system. Digital electronic are the one of important thing in human life. He explain about combinational circuits and sequential circuits.

The next session is on FPGA . . He explained that field programmable gate arrays are widely used in digital electronics . The session ended at 3:50 PM.

The session ended with the Vote of thanks by Mrs. S Asiya, Assistant Professor, Department of ECE.

Finally the workshop program concluded with the National Anthem.

Mechanical Engineering Department

Summary Report of one day Workshop

The one day Workshop on “ Cos, Pos & BLOOMS TAXONOMY” was organized by Department of **Mechanical Engineering**. The event was schedule on 29 th OCTOBER 2022. A total of 80 participants comprising principal, Head of the Mechanical department, faculty members of all departments attend the program.

The program started at 09:00 am with prayer song by Ms. P.sneha, Assistant Professor, Department of MECH, followed by welcome address by Mr.G.Narendranath Assistant Professor, Department of MECH to resource person and participants , Mr.S..Bhaskar, Head, Department of MECH introduced by resource person.

The session is handover to the Guest Speaker Dr. Hariprasad Tarigonda Professor & chairman-BOS(ME) MB University,Tirupati, he explains about “ Cos, Pos & BLOOMS TAXONOMY” .The role of CO-PO mapping will be assigned to the faculty as per hierarchy. After the course (subject) allotment from the department, the course in-charge of the course has to write appropriate COs for their corresponding course. It should be narrower and measurable statements. By using the action verbs of learning levels, CO’s will be designed. CO statements should describe what the students are expected to know and able to do at the end of each course, which are related to the skills, knowledge and behaviour that students will acquire through the course.He also explained about “BLOOMS TAXONOMY” with his skillfull teaching to the participants

In the interactive session, the queries and clarification of the participants were addressed by the resource person. The participants has been given the feedback about the session

The session is ended with the vote of thanks by Mr D.Dinesh Assistant Professor, Department of MECH

Finally we closed this workshop program with National Anthem.

More than 80 participants were benefited from the workshop.

Summary Report for Seminar

The Department of Computer Science and Engineering organized the Seminar on 17.08.2022. Mr.Senthil Kumar, Team leader, TCS, Chennai was the Chief Guest of the occasion. A total of 67 participants comprising principal, Head of the department, faculty members and students attend the program. During this riveting seminar, various topics were discussed about Machine Learning & Artificial Intelligence, that Artificial intelligence is a technology which enables a machine to simulate human behaviour. He also discussed about Machine learning, which is a subset of AI which allows a machine to automatically learn from past data without programming explicitly. The goal of AI is to make a smart computer system like humans to solve complex problems allows anonymous communication.

Civil Engineering Department

Summary Report of one day Workshop

The one day Workshop on “ADVANCEMENTS IN SURVEYING” was organized by Department of **Civil Engineering**. The event was schedule on 21st APRIL 2022. A total of 80 participants comprising principal, Head of the CIVIL department, faculty members of all departments attended the program.

The program started at 10:00 am with prayer song by Ms. G.Sobhana, Assistant Professor, Department of CIVIL, followed by welcome address by Ms.V.Priyanka Reddy Assistant Professor, Department of CIVIL to resource person and participants , Mr.S.MOHAMMAD ABRARTAHA, Head, Department of CIVIL introduced by resource person.

The session is handover to the Guest Speaker Mr.V.VENKATA KIRAN, CIVIL ENGINEER, VENKO INFRATECH LIMITED, TIRUPATI & he explains about “ADVANCEMENTS IN SURVEYING”. Advances in surveying technology are creating opportunities for members of that profession, as well as users of the end data. There are productivity gains to be had with robotic total stations. GPS can quickly yield mountains of measurements. Laser scanning can produce as-builts and base maps

In the interactive session, the queries and clarification of the participants were addressed by the resource person. The participants has been given the feedback about the session

The session ended with the vote of thanks by Mr. G.VIJAY KUMAR Assistant Professor, Department of CIVIL.

Finally we closed this workshop program with National Anthem.

More than 80 participants were benefited from the workshop.
